Join us for two sessions facilitated by the Assessment Team of the California Education Resource Center for the Blind and Visually Impaired.

**Building on the Basics:** FVAs, LMAs, Visual Perception. TVIs are responsible for preparing Functional Vision Assessments, Learning Media Assessments, and meaningful descriptions of a student's visual perception. This session will review each of these and consider best practice for deriving meaningful conclusions.

**Engaging the Significantly Delayed Learner:** Off-task behavior can be an understandable consequence of goals that are too challenging, yet may be seen as a lack of compliance. This workshop will give participants the skills necessary to evaluate student intent, comprehension, and motivation and then use this information to increase engagement of significantly delayed learners.

Course meets the qualifications for continuing professional development credit for SLPs as required by the California Speech-Language Pathology and Audiology Board. California CPD hours may be used to maintain ASHA certification (for more information visit <http://www.asha.org/certification/FactDef.htm>)
